Forecast For East Midlands
Issued by Met Office Exeter
at 0400 on Thursday 25 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Thursday, gradually becoming bright and mostly dry from the west.

Today:
Cloudy in the east at first, still with some patchy light rain. Brighter, mostly dry conditions in the west slowly edging eastward to give sunny spells for all by late afternoon. Maximum temperature 12 deg C (54 deg F).

Tonight:
Dry with long clear spells developing and with winds generally light, a touch of frost is likely in sheltered spots. Some patchy cloud likely across the Peak District. Minimum temperature 0 deg C (32 deg F).

Friday:
Some patchy cloud at times across the Derbyshire hills, otherwise generally fine and dry with plenty of sunshine. Generally light winds. Maximum temperature 12 deg C (54 deg F).

Outlook for Saturday to Monday:
Saturday, probably becoming cloudier from the north. Sunday and Monday, mostly dry with variable cloud but also sunny spells. Patchy mist/fog overnight, and at times on coasts/hills. Winds light.
